Bontlelas was formed and registered in 2021 during covid-19 period, this was a hard time for business but life had to go on. Opportunity presented itself when funeral homes were overwhelmed with burials, people wanted to bury their loved ones with dignity using the most luxurious vehicles available.

That's where it all started with one Mercedes Benz Vito as a family car for burials with funeral parlours. Bookings came in large and fast at that time Covid-19 had taken its toll and burials were literally every day of the week.

The idea came to expand the business into a proper shuttle service, then I procured services of other luxury Mercedes Benz range such as E-class, C-class and V-class then we expanded beyond funeral shuttle service.
