2. RATIONALE

2.1 The Gauteng Tourism Authority

2.1.1 The Gauteng Tourism Act (No. 10 of 2001), Section 3 provides for the establishment of the Gauteng Tourism Authority (GTA). Section 4 of the same Act provides for powers and duties of the Authority. The Act aims to provide for the promotion and sustainable development of tourism in Gauteng. The Authority derived its legislative mandate from the Gauteng Tourism Act, as amended by Act No. 3 of 2006. The rationale for revising this Act is to reflect the specific marketing role of the GTA, which was a newly adopted mandate, to include other developments, such as the implications of the National Tourism Act, No. 3 of 2014.

2.1.2 GTA is an implementing agency of the Gauteng Department of Economic Development (GDED). GDED approves the mandate and provides clarity on the roles and responsibilities of GTA. The Authority operates within the parameters of certain regulations. The declaration of government policies is derived from the Constitution of the country. The Constitution of the Republic of South Africa (Act No. 108 of 1996) outlines the roles and responsibilities of national, provincial and local governments, providing the basis on which these are regulated in all spheres of activities. GTA was established in terms of the Gauteng Tourism Act, No. 18 of 1998. The Act aims to provide for the promotion and sustainable development of tourism in Gauteng. Thus, the Authority derived its legislative mandate from the Act above.

2.1.3 Government legislative framework on strategic planning, monitoring and evaluation provides guidelines for government to report their performance information to relevant oversight bodies.

2.1.4 Treasury Regulations 29.3.1 and 30.2.1 assert that the accounting authority of a public entity must establish procedures for quarterly reporting to the executive authority in line with government reporting procedures. This is aimed at improving transparency and enhancing oversight over the financial and non-financial performance of constitutional institutions and public entities.

3. PROBLEM STATEMENT

- 3.1 GTA's Tourism programmes are outward looking, where the Authority implements projects in support of the sector for Inclusive and Sustainable Tourism Growth. The objectives of GTA's core programmes are to develop and promote, co-ordinate and facilitate responsible and sustainable tourism in Gauteng and other related functions.
- 3.2 The Authority implements projects in line with the government-wide priorities, i.e., reduction of unemployment, inclusive growth, establishment of effective partnerships across society, shapes South Africa's foreign policies through diplomatic and economic implementation of effective tourism programmes at national, regional, and continental platforms, and becoming central to global economic competition for tourism market share. These demonstrate the importance of the indicators above to the province the country in general.
- 3.3 Gauteng Tourism measures are aligned to government-wide models and even the world is taking into consideration South Africa's affiliation to the UNDP on SDGs which are a central focus of the UNWTO. UNWTO is the front-runner and the custodian in measuring world-world tourism by the World. Countries and regions. Reporting performance against these focal areas requires data collection and analysis methodology, which were submitted to AGSA. As reported to AGSA, performance reporting of the sector's indicators depended on the conclusion of the process of verifying the country's performance which is managed by the SAT. This means that GTA reports Gauteng's final performance using the SAT's final report.
- 3.4 As the GTA's approved practice in performance reporting, the various business units prepare their quarterly performance reports, which are tabled with the Strategy and Business Intelligence business unit. The Strategy and Business Intelligence business unit analyse the reports using government frameworks on performance information. The Unit deliberates on the accuracy, validity, and completeness of the data, guided by the legislation requirements and framework, i.e., PFMA, FMPPI, FSPAPP, Circulars and guides issued by the Treasury, DPSA and DPME. The method takes into consideration the necessity of certified and/or any qualifications on the accuracy, validity, and completeness of evidence. This process ensures that the data used to review performance internally is accurate, valid, complete, and reliable. After this process, Strategy and Business Intelligence prepares a Quarterly Performance Information Report and submits it to Internal Audit.
- 3.5 Internal Audit examines the information in order to determine the reliability of the reports to the relevant strategic objectives and provides feedback in the form of a formal report to

Management, the Audit and Risk Committee, and the Board of Directors. GTA also reports internally at its Exco, to the GDED at its SMT and EMT and Legislature.
