Section 17 of POPIA requires that all Responsible Parties (a public body in this instance) must maintain the documentation of all processing operations under their responsibility as referred to in Section 14 of PAIA. The purpose of this requirement is for Responsible Parties to be transparent about their processing of personal information.

Section 48(2)(a) of the Tourism Act: The National Registrar must maintain a central database of all tourist guides registered by Provincial Registrar.

Section 49(2)(b): A Provincial Registrar must publish or otherwise disseminate information about registered tourist guides, within the province and associations of tourist guides and any other information to promote and develop the tourism guiding sector within the province.

I accept and consent to the above _____
